"You Shall Know the Truth"

War is the sum-total of all crimes. Left to themselves no people would make war. War-makers are heartless, cunning, greedy. All wars are for booty. The U. S. A. engaged in wars for the booty of the Allies and the destruction of free government by the people, of the people, for the people. Wars bring slavery and conscription, debts and poverty for unborn generations even.

The "Free Press" in America

By SALEM BADER

LOS ANGELES, — A man like me who wrote a book once and saw it ignored and hush-hushed into oblivion; who wrote a syndicated column and saw it not printed or emasculated; who wrote articles and had them returned or condemned as "not printable" because they did not fit the pattern desired by the editors which they call "safe news", appreciates the following.

When a man like John Swinton who held an important position with a paper like the New York Times says it, it has much more bearing. He is an old hand at the newspaper business and should know.

This is taken from the Canadian Social Creditor which I have found to be a very reliable paper and tells the truth regarding world events as they really are, and not as they are sugar-coated or propagandized. Perhaps that is why its circulation is small!

At a farewell banquet given on Mr. Swinton's retirement not long ago, this is what the gentleman said:

"There is no such thing in America as an independent press. You know it as I know it. There is not one of you who would dare write his honest opinion and if you did you would know before hand it would never appear in print. The business of the journalist is to destroy the truth, to lie outright, to pervert, to vilify, to fawn at the feet of Mammon and to sell himself, his country and HIS RACE for his daily bread. You know this and I know it, and what folly is this to be toasting 'an independent press'.

"I am paid $250 a week to keep my honest opinions out of the paper I am connected with. Others of you are paid similar salaries for similar work. We are the tools and vassals of rich men behind the scenes. We are jumping jacks — they pull the strings and we dance. Our talents, our possibilities and our lives are the properties of these men. WE ARE INTELLECTUAL PROSTITUTES."

* * * *

Thank you Mr. Swinton! What a pity Mr. Swinton agreed to be sentenced into a life of intellectual prostitution. What a pity he did not possess the moral courage to say what he did long before his time for retirement. What a pity to waste a human life being a "jumping jack". How many are there like Mr. Swinton?

Is it a wonder the cancer has permeated our whole spiritual and material fabric. Are we the MODERN PHARISEES?

What a pity Mr. Swinton did not have, just a little more daring, and tell us who the "rich men" are "behind the scenes". Some of us know. Have we the courage to tell?

So, Man is Born Equal!

By ELENOR YORKE

It isn't a simple matter to trace just who is responsible for the famous phrase that "man is born equal". But, whoever it was must have had an ulterior motive — for it is certain he did not intellectually analyze the phrase; nor have the moronic parrots who have quoted it thru the ages given it serious consideration. For man is, by no stretch of the imagination, born EQUAL.

In one phase, and in one phase only, is there any semblance of equality. That is evident IN THE MANNER IN WHICH HE IS CONCEIVED. From the moment conception takes place man is UNEQUAL.

Men and women fuse their emotions for various reasons. They may be sincerely in love or they may bring forth a child resulting from intercourse during a drunken orgy. They may have given vent to their baser animal passions or it might have been just a routine marital exercise. Therefore, even the purpose of the union varies in individual cases.

During pregnancy the mother may dwell in luxury; or she may exist in squalor. She may be nourishing the child-to-be on rich healthful foods; or she may be getting along on bread and water. Therefore, UNEQUALITY exists even in the development of the foetus.

None of us will deny the UNEQUAL circumstances into which a child is born. They number into the thousands. The child may be wanted; it may be unwanted. It may be brought into the world rich; or miserably poor. It may be an only child; or one of a dozen. The list is long and easy to recognize by even the weakest thinker.

A child is born! It is physically perfect; or it is deformed. Is that EQUALITY? It is a child of talent and genius; or it is an imbecile. Is that EQUALITY?

The only answer to this commonly accepted UNTRUTH is to recognize within ourselves that man is not born equal. That his destiny on this planet is to develop and evolve to a higher state.

You are what you earned the right to be and God has given you a free will to be the master of your destiny. To this end man is endowed by God with EQUAL RIGHTS. Equal rights to seek out his individual line of destiny. YOU and only YOU as an individual entity can carry out that purpose.

Editor's Note: The origin of the phrase harks back to the fact of the helplessness of each baby at birth. And at death, all are equal also. The phrase was coined to remind the "superior" fools of their folly.

In the spiritual sense, though, **man is born equal.** Man, the Divine EGO, is the equal of every other man. God is his SIRE and gave none of His children any advantage over another.

The Law of Karma and Reincarnation explains Elenor's paradox.

"G. O. P." Congressman Tries to Pull a "Roy Carlson"

Fumbles Ball at German-American Republican Meeting, and Becomes Hero of Red Press

NEW YORK, March 28 (Special).—Some unknown "Red" is suspected of having imposed on Congressman John McDowell, from the 29th (Pittsburgh) Pa. district, and a member of the un-American Activities Committee.

Was it a "bum steer" which directed him, supposedly a Republican, to "investigate" Kurt Mertig's German-American REPUBLICAN League at one of its meetings in New York on the 18th?

Anyway, the Congressman was not content with customary investigation procedure, but, according to the story the "big shot" gave to the press on his return to Washington, he tried some detective stuff, palmed himself off as a son of German immigrants, etc.

However, the stories that the press associations sent out contained false charges and statements, which Mr. Mertig and associates assert they can contradict by affidavits from all German-Americans present.

SMALL TIME PUBLISHER

McDowell, a small-weekly newspaper publisher of suburban Pittsburgh, got a detective complex into his head and decided to pull a "Roy Carlson".

He had seen a postcard announcement of the meeting, so one paper wrote; but obviously he did not note that it was addressed to him, for the League had sent invitations to every member of the House and Senate.

Instead of coming in as an unprejudiced spectator, or even as an official guest, he "sneaked" in; pretended to be himself of "German blood", tried to provoke or trap the chairman into organizing secretly. He is said to have suggested to Mr. Mertig, **"Why don't you form a close-knit, closed organization to carry out your aims?"**

Mr. Mertig replied that he wanted his meetings open to all; that, altho political in campaign years, its present aim was to endeavor to obtain a just and Christian peace for Germany, and a relinquishment of the Morgenthau Murder plan, etc.

ASKED ABOUT PELLEY

McDowell sidled up to Ernest Elmhurst and asked, sotto voce, "What has become of Pelley? Is his movement coming back to life?" and "Have you seen Pelley lately? He was a fine fellow, etc."

Elmhurst replied, "Poor Pelley was railroaded to prison nearly five years ago, and is still there. I have not seen him in a long time. I think the Pelley movement died long ago."

Whether McDowell was a slipshod reporter or the papers to whom he gave his stories about his "Carlson 'Undercover'" stunt were careless of the truth, the following falsehoods were manufactured out of the whole cloth:

That there was SINGING of German songs thruout the meeting. Answer: There was no singing of any description.

McDowell is supposed to have stated to Mr. Mertig that he could not understand the talks, as his father did not teach him German, and the speeches thereafter were in English. Answer: THERE WAS NOT A SINGLE SPEECH IN GERMAN. McDowell made no such request.

McDowell is said to have charged that this free speech and free assembly of German-American Republicans indicated a "Bundist" revival. Sheer nonsense, as not one word was said or thought regarding such a movement.

McDowell was elected to the 76th and 80th Congresses. His district in 1944 went Republican by only 494 votes majority. There are doubtless several thousand German-American voters in his district, who voted Republican.

He may be assured that such "shenannigans" (a la Carlson) will cause his defeat next year, if he keeps them up.

The Red and pink press of New York went to town in libel and slander of Mertig's Republican group, following McDowell's undignified faux pas.

War is a Racket

By C. LEON de ARYAN

I have been warning persistently not to fall for the "humanitarian" or "patriotic" hog-wash of the war-makers. What "humanitarianism" is there in a sadist like Truman who danced like a cannibal with glee at the "success" of the Hiroshima A-bombing of innocent victims, while returning from Potsdam where he turned over Europe to the mercies of Stalin's Mongolians (who are not even housebroken)?

What "patriotism" is there in a highly "cultured" military gangster like Gen. Marshall who conspired with FDR to produce Pearl Harbor and Bataan?!

The purpose of War I, II and III is to destroy free government and individual initiative in business and agriculture in the U. S. A.; enslave us all to the Tory-Sanhedrin chariot and use our young men and women to grab the rich mineral lands of the world for the Rothschild-Rockefeller combine and their "Allies".

The housing "shortage" has demoralized Americans. So do all other "controls" of production. Financially we pay taxes for something the usurers never had, never loaned, but merely "gave us credit as a DEBT" to them; using our bonds to print currency and charge us principal and interest for it.

* * * *

Feeling it incumbent upon me to begin to worry a little about things in general and the national debt in particular, I have long mused over what it would be like to have a billion dollars, let alone 260 billions, which is what we owe. So I started figuring it out myself.

Well, if we had that 260 billions in cash instead of owing it, we could build the 12 million homes we need, do an extra special job and make them $18,000 houses, throw in a $2,000 automobile with each one, and have enough left over to give each man, woman and child in the nation a savings account of $1855. —Edw. T. Austin in the San Diego UNION.

* * * *

Our Congress is corrupted politically and in every other way. George Washington warned against entangling alliances because it would destroy the Republic, but our Senators and Congressmen have sold out to the Tory-Banksters.

* * * *

WASHINGTON, March 17.—United States will extend its campaign against Communism to China, with General Douglas MacArthur supporting Chiang Kai-shek, Senator Owen Brewster, Maine Republican, said today.

"Extension of General MacArthur's province so he may collaborate with Generalissimo Chiang is one of the most logical parts of the project. In fact, it is its most valuable part."

* * * *

Americans must guarantee top-priority to Standard Oil everywhere. But that the Banksters may continue to wreck free government and individual initiative in the U. S. A., Truman at the same time keeps supplying Russia with the where-with for industry and war. This drains the U. S. A. and creates more "emergencies" to prolong his "war-powers".

OUR GROUNDHOG WORLD

By Geo. Cartwright, Modesto, Calif.

ANEMIC TERMITES

"Lumber going into new houses is so poor, termites trying to eat it become anemic," is the latest building trades joke. "Rent-termites" however, are riding high wide and handsome, every day in every way, feeding on free public construction and service paid for by sales taxes, gas tax, meter tax, income tax, business tax and every variety of lousy tax the fertile mind of politicians can invent and inflict. Bridges, schools, highways, sewer systems etc., are built without cost to landholders. Postmen, policemen, firemen, public hospital nurses, teachers and other public service are paid for by taxes landholding "rent-termites" do not pay. Every item of public construction and each public service, tax-free to landholders, inflates the land-gamblers' take and deflates the workers' pocketbook in monthly rent or its capitalized purchase price. Hear ye! Hear ye! Let all patriotic consumer taxpayers bow the knee and worship the mortgage-holding, rent-collecting, sacred "Rent-termites".

ATOMIC SECURITY

Prof Albert Einstein, famous scientist, is sorry he helped develop the atomic bomb. "Had I known the Germans would not have succeeded in developing an atomic bomb," he says, "I would have done nothing for the bomb." He added, the bomb secret gives the U. S. only "security in imagination", as did the Maginot line for France in 1939. — Labor, 3-15-1947.

BRASS & BRAID

The U. S. Army and Navy are loaded with more brass and braid than at any time in the peace time history of the nation. **More than a $1,000,000,000 a year now goes for officers' salaries. The Army has 135,000 generals and field officers, not a few of whom are working night and day for adoption of permanent peace time conscription, so they can continue to be maintained in the style to which they have become accustomed.** —LaFollette's Progressive.

GASOLINE TAX LETTER

Hon. Earl Warren,
Governor, Sacramento, California
Dear Governor:

I regret that the Legislature will not pass the high-speed highway gasoline tax bill exactly as you wished. That would have given voters opportunity to give it the wallop by referendum at the polls. It doesn't need a diagram to explain what such a wallop to your pet bill would do for you at the next election.

If gasoline consumers must be crucified between two monopoly thieves, gasoline companies monopolizing oil lands, and holders of land-values inflated by highways built without cost to said landholders, we better give oil companies the advantage. **Land monopoly, held by a small group, is easier to abolish than by spreading it over the entire state.**

One year at hard labor for each drunk driver, with the term doubled for each conviction will increase driving safety. If that's not sufficient, **enact a federal law outlawing autos, other than police, fire department and doctors, that have not a built-in 40-mile per hour control.**

Sincerely, GEO. CARTWRIGHT

PRICES

"A hit dog yelps." Gen. Wood of Sears Roebuck & Co., recently commented caustically on tax inflated prices, but **failed to mention the taxes that cause such prices.**

Now comes Lawrence B. Sizer, Marshall Field & Co., Chicago department store executive, stating:

"There's no sense in fooling ourselves, prices are far too high, and we are as much to blame for it as anybody." He said the worst thing to happen would be to seek lower prices by reducing wages. That would simply destroy the ability of consumers to buy, even if they want to. Unless prices are brought down in orderly fashion, some things will happen to us we won't like—and they won't be done by government—they'll be done by the consumer who says "No!".

Right WORD — Right DEED

Our Easter Lesson

Dear Jessie:

Thanks for your $5 "tithe". Since you are offering it without strings attached, naturally, you shall receive in return that which is appropriate. I shall share with you the very lesson I am learning. It centers around the last phrase in your letter, to the effect that you hope someday to be able to **give all your time and labor to the service of others.**

"I am the Lord, your God, and you shall have no other gods before Me. Neither shall you make yourself a fixed image and worship it!"

Beware of the fixed notion of "giving all your time and labor to the service of others", for as you make it your idol you might miss the Lord, thy God.

At this writing I am suffering from the very consequences of giving all my time and labor to the service of others **while neglecting myself.** I am over-worked and in that condition contracted a collapse of the colon and more hernia; aggravating a previous condition. It is quite a shock to me, is painful, will entail expense and interferes with my natural elimination; and I am so particular about keeping clean.

This is Easter season; Jesus followed the true Principle of Service, even up Golgatha and into the grave. Yet he overcame them both, suffering for the iniquities of his time and surroundings. He overcame because **his first duty was to God, our Father,** and not "to others" as you put it. Where **duty led** him he followed. Where Truth leads we must follow. And while he endured to be even crippled and wounded to the quick, nevertheless, he could do nothing for others save set the **example of first allegiance** to our Father, above allegiance to Church, Sanhedrin, "patriotism" or the Jews of his day against the "Roman yoke", as Zionism even today demands allegiance of Jews against the "British yoke". In fact, the British people as rulers and colonizers are the very re-incarnation of the same individuals who ruled Rome and Zion.

While the New Testament fails to describe in detail the physical convalescence of the crippled Jesus after crucifixion, we have to realize the fact.

Our training must be to find God, our Father, hold converse with "God's presence" which is "the Kingdom of Heaven" and having established this contact **within ourselves,** (as you find the right wave length to listen in on a specific program, or station, on your radio dial) we, then, follow the "Plan of God". There we find **"love your neighbor as yourself"!**

As yourself,—hence **give not more service to others** than you give to your own self!

Before we can serve we must be able to serve. Thus, **the maintenance** of this "temple not built by hands", our own physical, intellectual, spiritual organism, the person called Jessie, comes **before service to others.** As Jessie has learned to find God, do justice to herself, then she does **as much** justice to others. This is "the Law and the Prophets".

We are prone to deprecate duties to ourselves and then, like in my case, the body, mind or spirit breaks down under the load. I foolishly neglected this proper balance because I was fired with zeal to be in L. A. and attend court sessions of the trial of Conscientious Objectors to War while hotel accommodations were so poor I failed to get a decent bed, slept poorly, became overstrained, collapsed.

Thus, let us return to first principles: God first, I am next and **my fellowman as myself.** Such is the very purpose and plan of Creation.

Again thanking you for your love offering, I am wishing you all the good things of the season. Happy Easter! Love, KOSTI.

"Striking" Conchies Found Guilty

LOS ANGELES,—U. S. District Judge Charles C. Cavanah found David L. de Aryan and 18 co-defendants "guilty" of violation of the Selective Service Act for "striking" when two conchies were transferred, without trial or hearing, to Minersville "punishment camp" for staging a "slow-down". He sentenced all of them to 10 months in prison, suspended sentence and placed them on two years probation. He asked all of them whether "henceforth they would obey the authorities". Seventeen of the Gentiles, like true sheep, bleated "YES". But two Jews, Goldstein and Shapiro, had presence of mind to specify "as long as it does not violate our conscience".

EDITOR'S NOTE: Owing to lack of space we shall report more in detail on the trial next week. Attorney Heisler, for the defense, made a splendid arraignment of Col. Kosch as **a subversive agent of militarism undermining American government.** Both Wirin and Heisler presented a perfect defense. Somebody remarked that the Judge **"needed a pill". He was wrong.** The Judge needs a **high colonic flushing;** a pill would not be enough to enable him to THINK. He should see Dr. Melby.

What Joan McBride Didn't Do

JOAN'S SISTER REVEALS FACTS

LOS ANGELES, — Mrs. Gertrude Wouters had rushed to Detroit when Joan was arrested on charges of having aided in the escape of a German prisoner of war, Rudolph Soelch, and "kept him hidden" in Detroit in her apartment, allegedly living as man and wife. She attended the trial and after Joan was sentenced and transferred to prison, Trudy returned home. I met her by appointment, having only two hours free before my train took off for San Diego.

"I was very much hurt by Jim McBride," said Trudy. "He should have taken the stand and told the truth. There had been several German prisoners who wanted to escape but Joan refused to have anything to do with it. On the other hand, **Rudi did not want to escape** but Jim persuaded him that with his artistic talent in water colors the two could go into business together and make a lot of money. Besides, Joan had served divorce papers on Jim. He hoped to rope her in so she won't be able to divorce him if the two would take Rudi along as an escaped prisoner.

"It was on a Friday. The Monday following, Camp Haan would have closed down with its prisoners **shipped to Russia and France as slave labor.** Rudi wanted to 'stay with his buddies', the way they had shared the common lot as soldiers, but Jim persuaded him to take a chance on liberty in place of death and starvation in Russia or France. He hid him with some friends.

"Joan had half interest in the community property of the car and she and Jim were supposed to drive to Chicago where Joan was to visit her folks while Jim was to take the car and drive to Pennsylvania to his mother, with the divorce action to follow later. Joan was thru with him.

"So they started out from Los Angeles and picked up Rudi at Murietta. Joan was surprised to see him get into the car. She had imagined he had been shipped to Europe. Of course, she was not going to give him away. But Jim was jealous as he noticed that Joan treated Rudi more like her own kind while she was ice-cold to Jim. There were several fist fights, you know Jim. Finally, Jim left Joan and went to his mother while Joan stayed in Detroit. Here she rented a room and you will appreciate this, Kosti, you know Joan; she never lived with Rudi, but because her room was larger than Rudi's—he had one in another part of town, she let him keep his easel and water color paraphernalia in her room.

"Joan worked nights and Rudi worked daytimes. She used to sleep afternoons before 5 when he returned from work. Then he would call at her room and while he fooled around with his painting she would make supper, then dress and go to work. Whenever he was thru painting he would go to his room for the night.

"Jim must have been talking too much while he was mad because his scheme to hold Joan did not work and she was going thru with the divorce. You know, she was going to divorce him six years ago. But when both got jailed over the FRIENDS OF PROGESS, Joan was too decent to make it harder for Jim and gave him a chance to recover from the jail ordeal first. But it was no use. Jim is Jim and you have been at their house often enough to understand. So the FBI got wind and investigated. They found out about the time schedule, how Rudi called after 5 on Joan and before dressing up she cooked supper. You have seen Joan at home when she worked in her dressing gown. You know that it is not flimsy, nor open. It's heavy and warm material, fastens with a zipper. And that is how she was dressed when Rudi arrived. No sooner was he in the room than the FBI knocked. After they identified themselves and showed the warrant, Joan let them in. Rudi was in his street clothes and the FBI frisked him immediately, arresting both. But at the trial the agent lied. He said Rudi was nude and Joan in a flimsy nightie. That's what the papers printed. On cross-examination the agent confessed his first act, when he saw Rudi, was to frisk him. That showed the agent up, how could he frisk a naked man? But the papers kept on repeating the lies to make Joan look bad.

"The district attorney in Detroit is part of the political machine which controls officialdom so that Judge Lederer fell in with him. At the trial it came to light that Joan had not helped Rudi escape, had not known about it. He told how Jim had persuaded him and Joan had known nothing. Also it became evident that the second count of the indictment, helping to hide the prisoner, did not apply to Joan since Rudi was not hidden. He went about his business openly and worked. But because the FBI had threatened to give trouble to Joan's brothers and sisters if she did not 'confess' at the time of the arrest, Joan was scared for them; she knew how many innocent Germans have been thrown into concentration camps and later deported without trial, so she was afraid for her family and signed a 'confession' because the FBI promised that in such a case they would not bother her relatives. On the strength of this fake 'confession' she was convicted and the judge refused to let her out on bond pending appeal because the political pressure of the district attorney in Detroit is terrific and he opposed bail."

Knowing the background of James and Joan McBride, Gertrude's version makes sense. Evidently, Joan is destined to bring out the violations of the Geneva Convention, for Jim refuses to appeal the case. He accepts his guilt and calls it a "Godsend" to spend four years in prison. Knowing now that Joan was innocent all the way, from the start to finish, even under the terms of the indictment, it becomes our duty even more to bring her innocence to light while exposing the crimes of the U. S. government against the Geneva Convention.

I had to attend the two trials of the conscientious objectors to war. Went thru a crisis of physical collapse from overwork and lack of sleep. I have to arrange for the defense of Margaret Lovranich against the American Medical Association's persecution thru the "fraud" order of the P. O. department. Yet, we cannot leave Joan to the wolves. Please, help us raise the remaining quota of $1500 for her appeal by contributing whatever you can spare now and later on.

Another "Persecution Trial" in Washington

WASHINGTON, March 15 (Special)—The vicious and vengeful Newdeal opened on Monday another persecution trial of its enemies.

They never forgive anyone who worked to keep America out of the recent World War. Douglas MacCollum Stewart, of Chicago, was one of the publishers of the "Commentator"—famous and persecuted Anti-War magazine up almost until Pearl Harbor. It was never pro-Nazi, never anti-American, altho Anti-Newdeal. Germans with perfect legality (while at peace with the U. S.) contributed to its support, so it is charged.

A little over three years ago, the Washington Administration jerked Mr. Stewart before the D. C. controlled ("political"?) grand jury and compelled him **in violation of his constitutional right to give evidence against himself.** For not giving the right answer as to why he refused to testify, he was tyrannically forced to serve **three months in jail**— "contempt of court".

Now Newdeal tyrannical bureaucrats charge Stewart with "perjury" for stating he did not know the true source of a package of money that was left with him.

At great expense to the U. S. they have brought ex-officials from Germany and force them to testify against Mr. Stewart.

Baron von Strempel, first secretary of the German Embassy in Washington, was in doubt as to the exact amount—$5,000 or $15,000—and as to the identity of the persons he contacted. But he was in no doubt as to the cruel COERCION AND DURESS he suffered at our agents' hands in Germany.

He said that he was arrested by two British secret agents in his room in Hamburg, Nov. 13, 1945. When he asked for their warrant, "they smiled, **drew their guns** from their shoulder holsters, and said **that was their warrant."**

He spent one night in a jail and three days in another prison, incommunicado. Then he was taken to an **American interrogation center, where he was confined for four weeks. Then he was kept seven months in a detention camp, where he was questioned by fifteen men.**

His health was "never so bad", he told the jury of ten men and two women. He was so weak he **"had to lie down fifteen hours a day".** Every time he was interrogated he asked why, but was told it was all "for the benefit of the American Government" and would be kept secret.

Federal Jury Slaps Down Newdeal Prosecution — Quickly Clears Stewart — Justice Laws Smites the Late Judge Eicher . . . Capitol Comment

By WASHINGTON ADAMS

WASHINGTON, March 26 (Special)—American "old time" justice triumphed yesterday when the Federal jury, hearing extorted evidence against Douglas M. Stewart, pre-war peace advocate and publisher of the patriotic magazine, "Scribner's Commentator", **quickly found him "not guilty"** of the charge of perjury in refusing to testify against himself in 1943.

Chief Justice Laws, in charging the jury, deplored the accidental mention during the trial that Mr. Stewart was sentenced to 90 days in jail in January, 1944, for "contempt of court and obstructing justice", after he had insisted he had no idea who gave him four cash gifts in 1941, totaling $39,000.

"Mr. Stewart was not given a fair hearing, with witnesses," said Justice Laws. "He was punished solely on the statement of Mr. Rogge (O. John), then prosecutor in the sedition case.

"It was an unfortunate mistake. It violated Mr. Stewart's constitutional rights as a citizen."

The late Judge Edward C. Eicher, who died after eight months of the so-called Moscow-style phony "sedition" trial, was the jurist who imposed the contempt sentence so strongly criticised by Justice Laws.

Baron von Strempel and Hans Thomsen, formerly chiefs of the German Embassy here, were brought from Germany, after long coercion there by Rogge and other agents of the Justice Department, who **threatened the former with death if he did not testify as they wished.**

The governmental waste in this long persecution based upon hate and revenge probably amounted to something under $50,000.

The N. Y. "Daily Worker", noting the presence at the trial of Ellis O. Jones, Victor Broenstrup, Frank Clarke—former defendants, some defense lawyers, and that redoubtable Dr. Maude De Land, exclaimed, **"Hail, hail, the gang's all here!"** And happy they all were at the verdict.

When in 1943 the Supreme Court slapped down Wm. Power Maloney, the Federal "pee-wee" persecutor—who liked to call himself "the government", the powerful "Times Herald" **URGED THE IMPEACHMENT OF ATTY.-GEN. BIDDLE, as being responsible for Maloney!**

How much more doth it appear that the Republican Congress should INVESTIGATE THE JUSTICE DEPARTMENT, and either impeach Tom Clark or pass a resolution of censure against his department.

If this were the America of 1804, it surely would happen. Read the great speech of Congressman John Randolph of Virginia in the impeachment trial of U. S. Supreme Court Justice Samuel Chase for misconduct in the sedition trials of that period, in which **Randolph pointed out the DUTY of Congress to keep an eye not only on the Justice Department, but also on the JUSTICES!**

More and more it is coming out just how much devilment the New Deal's infamous regime was responsible for!

* * * *

CAPITOL COMMENT

REDUCTION of the New Deal's extortionate TAXES would be the greatest feather in the cap of the Republicans.

Let Mr. TRUMAN VETO such a bill—at his peril. It would mean his certain and overwhelming DEFEAT in 1948. Also his party's.

I urge Republicans to read President Andrew Jackson's messages on ECONOMY—and how he was the ONLY President to see his government out of DEBT, less than 20 years after the War of 1812.

* * * *

WHY $400,000,000 for Greece in ONE SUM?

That's more than it took to run our Federal Government from President Washington to President Jackson, if my memory is correct. (I shall give the exact figures later.)

THE VOTING OF IMMENSE SUMS TO AN EXECUTIVE IS A DANGEROUS THING—capable of destroying human liberty.

Why not in smaller amounts, from time to time, as we see what develops? Say, $25,000,000 now; same amount six months later; perhaps we can put the Greeks back on their feet with much less than 400 millions. And CONGRESS HOLDING THE PURSE—not one cent for executive decision!

Unless the New Deal's habit of drunken EXTRAVAGANCE is halted, our once-great country faces certain RUIN.

Our Federal debt now is about SIX TIMES what our total national wealth was in 1890.

ARNALL, the Georgia leftist and blatherskite, promised that FIVE of that State's supreme court judges would vote to unseat TALMADGE! "How do I know it?" he asked. "I appointed them myself."

Which strengthens my argument that the State Senates should appoint the State's and the U. S. Senate should appoint the nation's

SUPREME COURT JUDGES!

I AM THANKFUL

Altho no reader donations have reached me recently in my fight for good government and true Americanism, I have had some encouraging and inspiring words of praise and commendation from true friends and loyal compatriots.

We are living in a dark and fearful age, and all of us who bear the brunt of battle need the kind word and the encouraging pat on the back.

I am deeply and truly grateful, and shall never forget them.

Questions and suggestions are alike welcome; also clippings and diverse viewpoints. Thanks a million!

Don't Be Iniimidated!

Dear Fellow Patriot:

George Washington erected a standard to which the wise and honorable might repair.

This is exactly what we propose to do by resuming our regular weekly open forum every **Tuesday 8:30 p. m. at Werdermann Hall, 160 Third Ave., (near 16th St.) New York City.**

Our present "New Deal" administration continues wilfully negligent in its duties to real Americanism and to humanity. We must send delegations to Washington to acquaint members of Congress with our just grievances.

Especially American citizens of German descent must unite to oppose the oppressors of the helpless and demand that a just and fair peace be at once negotiated with Germany.

Please assist us in our endeavors and attend our meetings.

Public Employee Unions Outlawed

LOS ANGELES,—Any union of public employees can be dissolved with a pen stroke, under the ruling of the District Court of Appeals in the Los Angeles police union case.

This was the opinion of City Attorney Ray L. Chesebro, after studying the decision in the police case, which was written by Justice William C. Doran and concurred in by Justices John C. York and Thomas P. White.

"From now on, it is an executive matter purely," said Chesebro.

"Whenever a governing commission finds that membership in a given union is against public policy, it can prohibit such membership under pain of loss of job."

Chiefly affected by such action would be Local B-18 of the International Brotherhood of Electrical Workers, which has several thousand members in the Department of Water and Power.

It was this local which struck in 1944 and stayed out until the President seized the department and put it briefly under Army direction.

A simple resolution by the Water and Power Commission, similar to the one adopted by the Police Commission in the police union case, would outlaw membership in the union.

Also affected by the ruling is the CIO United Public Workers local which last fall threatened a strike of garbage handlers and street maintenance workers. The strike was averted by Mayor Fletcher Bowron's appeal and by a subsequent pay raise.

Teachers' unions could be dissolved by the Board of Education, it was pointed out, so broad is the scope of the ruling.

The police union has 15 days in which to appeal for a rehearing before the Appellate Court, 40 days in which to go to the State Supreme Court.

Alley Pinboys Battle Labor Racket

C. V. Thompson, President of the San Diego Bowling Proprietors' Association, announced that no pinboys will be discharged for refusal to pay dues to the AFL Building Service Employes' Local 102.

"However, as replacements are necessary, bowling alleys will probably hire pinboys recruited by the union and willing to pay dues to the union," he said.

Approximately 100 pinboys of the Association's 13 alleys have "rebelled" against an oral agreement between the union and the owners providing for a checkoff system whereby dues of 8 cents a day are to be deducted from their pay checks. They have refused to sign authorizations for such deductions, Thompson said.

Mr. McCabe not Consistent

Part of the profits of the International Elevator Company, of which Ben. C. McCabe, president of the **anti-co-operative** National Tax Equality Association, is head, are paid to the employees of the company on a profit-sharing plan. The company pays no income tax on the part of its profits paid in this way to its employees.

When Mr. McCabe's company gives part of its profits to its employees, on a contractual plan, they cease to be profits and become wages. It is quite all right, therefore, that the part of the profits paid to employees in this way should be free from corporation income tax. These profits shared by the workers as wages become income to them, to be included in their income-tax returns.

This sharing of profits with employees is essentially the same as the making of patronage refunds by co-operatives. The profits of a co-operative returned to the patrons as patronage refunds are no longer profits. They become an addition to the price in marketing transactions, and a reduction in price in supply transactions.

Mr. McCabe insists that co-operatives should pay income tax on the income they distribute as patronage refunds. In this, he is quite inconsistent, for patronage refunds are in the same category as the profits of his company paid to the employees as an addition to their wages.

Is Truman Waking Up?

My dear Mr. de Aryan:

When I write or speak I like to say something worthwhile. In the introductory part of my book, THE LOST WHITE RACE, I quoted from the Bible thus: " . . . neither cast ye your pearls before swine, lest they trample them under their feet". — Matthew VII:6. The enclosed clippings from two Boston newspapers prove that that warning is an eternal TRUTH. Norma Norwood lived at a ladies hostelry where only upright women could reside. She must be upright and morally good. SHE was ONE of OUR pearls. WE cast her before them, and she WAS trampled all right . . . for she MAY die. YOU read the details in the clippings. THIS is happening just TOO often!

Your columnist, WASHINGTON ADAMS, in my ADULT opinion, is really and truly a Gentile Genius. He is also VERY courageous in the face of what and who is in control of world opinion today. As the GREAT Westbrook Pegler says: "The very men you are defending from these monsters, the communists, are likely to beat your face in because they have been taught day and night to hate you as a reactionary."

Well, as you well know, the tide is rapidly turning, and even President Truman is waking up. These communists are getting frantic, and are beginning to show their hands so that ALL can see. Isn't THAT wonderful! They can no longer disguise themselves as democratic liberals, but MUST come out and SAY what they MEAN. WE might SAY: "Pardon US but YOUR colors are SHOWING!" Red sails in the sunset, etc.

The load that you and I, and all the rest of our true patriots, have been pushing UP hill during the past several years in the face of fierce opposition, is now at the top, and other, more effective hands, are taking over. I firmly believe that WE can SOON sit back . . . and enjoy the show. It's going to be terrific. Any nation which challenges the know-how and MIGHT of THIS White Country is certainly asking us to throw everything we have at it . . and when we do . . . THAT misguided nation will be destroyed. As OUR leading warrior . . . YOU take MY advice and sit back while you enjoy the show you predicted many years ago. The curtain rises, and now the SHOW begins. TRUMAN is speaking!

As ever before,
Your faithful fighting Aryan,
IRA CALVIN WHITE
P. O. Lock Drawer H
Brookline 46, Mass.

Editor's Note: Mr. White seems to imagine that Truman is "waking up" to the menace of "Communism". Nothing is farther from the Truth.

Communism is the other extreme of Feudalism. Where the tenant pays tribute to the "noble Lord of the land", we have Feudalism, the **present "American(?)"** system.

Communism claims all people alike have rights as against the "capitalist land-lord" and owner of the "tools" of production, including land.

The menace of Feudalism to the true American ideal of a sovereign citizenship is as evil as the menace of Communism, because Communism of Marx and Lenin denies private property and makes the citizen a slave of the state as much as Feudalism does.

What Truman is doing is not a case of "waking up". Since Rockefeller wants Oil in the Middle East and Russia wants it, too; since Rockefeller owns and controls the Republican and Democratic parties Truman now conditions the morons of America to hate Russia, as FDR conditioned them to hate Hitler and the Japs.

Protest on Homer Loomis, Jr.

Dear Mr. de Aryan:

I just bought a copy of The Broom at 86th St. & 3rd Ave., which I often do. I am surprised that you mention Homer Loomis, Jr., as the "would be Hitler of America". The enemy does enough of that and how they enjoy the fact that we knife each other. When you were in trouble I went to Washington to try to help you and others. I called on your "court appointed attorney" and would have called to see you but it happened to be Thursday (I think) which your lawyer said was Niggers day. I was responsible for getting a few contributions for you so you can understand how I feel when you do not stand by others in same boat.

The N. Y. C. Bar Association is composed mainly of Jews and one of the top ranking **(very bright)** Jews who investigates "Un-Americans" is a Jew who paid his way thru college by operating three houses of prostitution in Brooklyn.

That is the kind of people we have snooping on us. I heard recently that you quoted from a speech by Rabbi Leon Spitz, taken from American Hebrew, where he gives a formula for the extermination of the Anti-Semites "as our ancestors did 2500 years ago": about the celebration of Purim days, etc., etc. Will you kindly send me the paper? Send me two copies if you have them and I will immediately reimburse you. We looked thru all back numbers they had at 86th and 3rd Ave. I hope you will have no more trouble. You have been persecuted quite enough and quite unfairly. So have I been.

Please, do not take offense at anything I have said. It is friendly criticism and I know that if you only knew what is really going on in N. Y. it would help a lot. It isn't a case of being Anti anything or anybody. It is now a case of self-preservation. Thank you.

Sincerely yours, IDA M. COOPER, N. Y.

"EXTRA-WURST" FOR JEWS IN FRANKFURT

FRANKFURT, Germany,—The city of Frankfurt is offering special privileges to the Jews once persecuted here and encouraging the return of Jews who fled from the Nazis.

The mayor's office reported these official attempts to compensate the Jews: (1) Nearly $10,000 will be paid 60 Jews now living here who were forced to do municipal labor at lower wages than those paid other Germans. (2) Jews are given priority on city jobs and on nonsecured loans up to $2,000 for starting businesses. (3) Establishment of Jewish businesses is encouraged by helping Jews obtain merchandise.

At least 10 Jews who fled to other countries have returned to Frankfurt, the mayor's office said.

OPPOSES COFFEE DRINKING

Dear Mr. de Ayran:

Please send me the Broom.

Enclosed you'll find two dollars.

You've gotten our people here stopped from eating meat and oleo. I wish that you would say something about coffee so I wouldn't have to carry that home anymore.

You certainly have a good paper. I liked your article where you told the lady to fight when they stopped her from sending herbs. Please start me with that issue.

Yours truly, M. R.

* * * *

Dear M. R.:

While I am glad to show the way to better things, I am careful not to follow notions. A good thing out of place is just as bad as a bad thing.

Meat and oleo "fortified" with fish-oil "vitamins" are destructive on all three planes of Life, the spiritual, mental and organic. But coffee is different. It is a stimulant if properly prepared, just bring to a boil, twice or three times; or else drip.

True, coffee is also a drug but because it is a counter-irritant, as well as a drug, I would not make an ironclad rule against it the way we do against killing animals or stealing their milk and eggs. Chickens eat worms and so eggs are second-hand worms, too.

As long as we live in cities with smog, with exhaust fumes from autos, leading a sedentary life which loads the body with fine poisons and paralyzes perfect nerve reflexes and impulses from brain to nerves, high-strung persons suffer more from such conditions than they do from the use of coffee as a counter-irritant to overcome their physical lassitude. Personally, I prefer not to drink coffee, but at times am up against it. Work **must be done,** yet the body does not respond. Then it becomes more important to do the work, so a drink of hot coffee is the solution.

When your people are able to lead a natural life in open country, good air, lots of physical work, friendly surroundings, naturally, it's foolish to drug themselves. Sincerely,

KOSTI.

The NKVD in America

In San Francisco a Russian sailor who got to know and like the American climate of freedom has related a story of living in terror of kidnaping or death at the hands of soviet agents in the United States. The sailor, Alexander F. Lobanov, began coming here in Russian ships in 1928. He picked up some English and in 1943 was assigned by the Russian government to shore duty at Portland, Ore.

Portland was one of the principal ports for shipping lend-lease to Russia. Lobanov's job was to find billets ashore for Russian sailors in port. Later he was attached as a guard to the soviet purchasing commission. He began to get into trouble with the Communists when he refused to move from his hotel room to a rented house occupied by other members of the mission.

"I wanted to live in freedom like the Americans," Lobanov said. He related that when his superiors detected these dangerous notions, they ordered him aboard a ship to take him back to Russia. Instead of complying, Lobanov bought a bus ticket to San Francisco. Before he could get out of town another Russian seaman and an official of the soviet purchasing commission seized him, threw him in a car, and beat him. They apparently intended to shanghai him aboard ship, but their car was stopped by a police squad which rescued him. The two other Russians, however, were released at the police station.

Since then the immigration authorities have permitted Lobanov to sail on American and other ships not of Russian registry. Recently this privilege was refused on the ground that the sailor lacked a passport. A lawyer advised Lobanov to go to the Russian consulate to obtain papers. The sailor says that, were he to do so, he would expect to wind up on a Russian ship, to be murdered after passing the three mile limit.

This narrative discloses a shocking condition whereby Russia extends the soviet system of police terror to American soil, engages in acts of violence against political refugees, and is permitted to get away with it by American authorities. If American agents pulled this sort of thing inside Russia, they wouldn't last a minute. The New Deal has been more than hospitable to communist activities in every form, but it gets a bit thick when the NKVD undertakes to enforce soviet political conformity in this country. The proper recourse would be to toss these agents in jail for offenses against peace and, after they have served their time, to deport them to Russia. — Chicago Tribune.

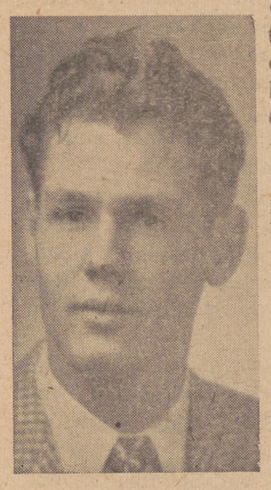
David Meets Arthur L. Bell

OUR ENEMIES DECLARE THEMSELVES

"Daddy," said David, "what did Mr. Bell mean when he said that you bite off more than you can chew?"

I had introduced David to Arthur L. (the Voice) Bell while the two trials were going on simultaneously in the federal building on different floors; in bankruptcy court and in Cavanah's court against the "conchies". David is 6-foot-five, 195 lbs., never ate meat, and is by no means dumb. Bell was glad to meet him, saying, among other things, "I admire your father's courage. I don't agree with him in many matters but he dares to say what he thinks; **at times he bites off more than he can chew,** nevertheless, he has much valuable experience and even though he is your father, you will do well to follow his advice."



DAVID L. de ARYAN

"Well, David, Bell has an entirely different background in life from mine. Our common bond is the fact that we both are **'In The Service'.** But each has a different job which in a fashion complements the other. It takes all sorts of people to make a world and **'In The Service'** each has a different task which in the mosaic of life adds up to success."

"Do you, though, really bite off more than you can chew?"

"No more than he does. Among other instances, Bell went into voluntary bankruptcy to protect the Church-estate, yet instead of protection the federal court robbed him and the estate of about one million dollars by going on a witch-hunt to prove him a crook, while the court should have been paying off the creditors and protected the members of the Church."

"Then why did he say that about you?"

"Because that is the way it looks to him. **It must look that way to many people.** When I started THE BROOM I was told by 'experts' that I bit off more than I could chew. That I could not last longer than three months. It's 17 years since. When the Jews and the labor racketeers joined hands in boycotting THE BROOM, terrorized the advertisers who withdrew, again they imagined I had bitten off more than I could chew when I continued exposing the crooks and gangsters. You bear in mind that Bell said I was making many enemies by my methods, but am courageous to carry thru. He imagines that I am **making enemies unnecessarily.** He does not realize that **I am not 'making' one single enemy.** They **ARE** our enemies, masquerading as friends. All I do is compel them to unmask and appear in true character. **They hate the truth** and that's why they hate me, too. They fish in troubled waters, they create **emergencies and war, strife, poverty and disease.** I expose them all; in religion, in politics, in education, in economics, in medicine and, naturally, I have to bear the brunt of their hatred. Bell may think I should proceed in a different way. But I have nothing to say about the method of procedure. **I am under orders. I ACCEPTED THIS JOB when it was offered, now all I can do is carry thru."**

"Do I understand that your socalled job is an 'office' in the 'divine government' which operates thru its loyal people on this planet?"

"You said it, David. And all I can do is execute the duties of this office. If I call the subversive Jews by their right name, as well as the labor racketeers and all the murderers and thieves in high office, from Truman down, I merely tell the truth. That is my job. If they hate the truth, then, people say I am 'making' enemies. But did I make them? **They were that way all the time** only they fooled people into believing they were our friends and interested in our welfare, yet they worship murder."

"That is strong language, daddy."

"Yes, David, it is, but it is the truth."

"Are you supposed to judge people and call them names in public?"

"David, there are angels without number watching us all the time. Whatever we think and do is recorded. There is no escape. I don't meddle in the private lives of people. **But where one comes out publicly and demands our trust, THEN** I size him up and compel him to unmask. What I see **I tell publicly, THAT is my job."**

"So you are a judge of men?"

"Yes, when they ask for our confidence. So many betray that confidence that it appears I was 'making' many enemies. But I don't turn friends into enemies. They always were our enemies and will be until judgment day."

Most "Privileges" at Riker's are "Phony" – Injustice Rules

Elmhurst Book Shows How Prisoners Are Not Reformed, But Are Often Made Worse

NEW YORK, March 6 (Special).—Gentile inmates on Riker's Island misdemeanor prison of N. Y. City are not even allowed to have newspapers sent to them, while Jewish prisoners have (furnished to them by authorities) all the political newspapers and periodicals they wish, according to Chapter IV of Ernest F. Elmhurst's startling book (as yet in mss. form).

Mr. Elmhurst was one of three Christian inmates (along with Messrs. Mertig and Maertz) who served several months on the Island in 1946, without a jury trial and as the open result of **Jewish persecution** and abandonment of free speech. In exposing the "Red Jews" in his famous book, "The World Hoax", he had earned the ill will of the tribe of Judah.

This review deals with the latter half of Chapter IV, regarding the **"phony" privileges** of the persecuted inmates. It recalls to mind the great lecture by Robert G. Ingersoll on **"Crimes Against Criminals",** only in this case, few of Riker's guests are really criminals. Some, like Elmhurst, are political prisoners.

One of the so-called privileges of inmates is the Commissary, where inflated prices for all articles sold is the rule—about twice that charged in outside stores. Re-sharpened razor blades are sold for 5 cents. A kick at its dullness or breaking in two brings threat of the "bing" (solitary).

MIRAGE OF "FREE TOBACCO"

The Riker's Review once published an official order, offering, under certain conditions to "good" inmates, FREE TOBACCO, cigarettes, candy, etc.

As two-thirds of the men have no money, the offer created great interest. Later on it was found what the conditions were. First, the men filled out and signed a questionaire or application, directed to Capt. Adler.

Few persons were ever favored; nearly all were regarded as unworthy. The tiny distribution of the free goods was apparently for advertising the "humanitarianism" of the officials at Riker's.

"The smoke about smokes at Riker's Island went up in smoke."

In July, 1946, a new and more sinister scheme succeeded the "free smoke" offer . . . Pauperized inmates were given the opportunity to 'earn' a little cigaret money.

It became known that certain "Russian doctors" (with Jewish names) and one Japanese wanted to inject serums into inmates and test their reaction.

A score of "Aryan" penniless boys were approached, with an offer of $5 each, if they would submit to medical and surgical experimentation. Some accepted.

On another occasion a large number of inmates were paid $1 each to permit their hair to be cut by senior students from a barber college.

Ten dollars were offered to a healthy inmate to permit an unneeded hernia operation. He accepted.

PART OF HIS 'GUT' REMOVED

The story went the rounds that one volunteer had so many inches of his intestines removed that he became a hospital casualty for months. It seems that inmates without relatives are chosen;—less danger of suit, in case of death.

Some youths were paid to masturbate for the benefit fo the "Russian doctors'" experimentation. Out of 24 boys who were approached, it was reported that only two turned down the offer.

Another "phony privilege" is the opportunity for one visitor a week to speak thru an almost-soundproof wire screen . . . Occasionally a "bench visit pass" may be wangled from a doctor; but the noise of so many persons trying to be heard at the same time makes understanding difficult if not impossible.

Shyster lawyers grab all the victim's money and abandon him without conscience or help. . . . Official "parole officers" extort as much money as possible and fail to make the good report promised.

And so much for the "privileges" of the unfortunate inmates of New York's Newdeal prison!

The Case of Pelley

By ELLIS O. JONES

William Dudley Pelley, well known as a victim of the perverted Justice Department under Roosevelt, Biddle and Maloney, has recently had further mishandling under Truman and Clark, both graduates of the notorious Pendergast machine of St. Louis.

As Mr. Pelley's health has greatly deteriorated as a result of his long incarceration in the Washington Bastille, an application was made for executive clemency on that ground. This was denied just about the time Mr. Pelley was going under the knife for a serious operation.

Shortly after that a writ of habeas corpus was sought in the Indianapolis Federal court where Pelley was tried. This was based on the broad ground that Pelley's conviction was substantially annulled by the Supreme Court's reversal in the Hartzell case. This writ was denied on the ground that the court was without jurisdiction because Pelley was in Washington.

Thereupon the same effort was made in Washington and Judge Goldsborough ruled that he was without jurisdiction because Pelley's presence there was merely as a result of a subpoena ad prosequendum.

So there you have a situation where an American citizen is wholly denied access to and protection by our boasted courts of justice. Roosevelt not only packed the Supreme Court, but the lower courts as well and as these judges are appointed for life, it will take a long time at best to purify the courts of justices.

Editor's Note: Under these circumstances the Supreme Court has jurisdiction for a writ of habeas corpus.

New York Rapidly Going Negroid; Compulsory Mixing

White "GIs" Asked to Share New Housing with Negroes on 4 to 1 Basis

NEW YORK, (Special).—White "GI" soldiers, getting back to New York after four years in war, are sore at the changes which have taken place in their absence, and feel that they have been "sold down the river" by demagogic politicians.

One of them, applying for an apartment in one of the new city and federal housing developments the past week, was shown the contract, and down there in black and white were the words that the new white tenants must agree that 25% of the renters MUST BE NEGRO VETERANS!

The particular development, about which this brave "GI" was indignant, is known as the "Eliot Housing Project", located on 10th Ave., between 25th to 28th Sts., in Manhattan.

To his indignant protest against COMPULSORY SOCIAL EQUALITY, the authorities stated, "this is a housing project on the combined parts of federal and local sponsorship, and therefore must show no partiality toward the white veterans".

The "GI" replied: 'But why not erect houses for Negro veterans in Negro sections of the city? Why bring them right into the nicest parts of the white sections of our city and turn them into 'little Harlems'?"

The official hemmed and hawed, and remarked, "Well, I didn't make the decisions. They were made by higher-ups".

White people move out of streets being taken over by Negroes, as rapidly as the colored move in. It is just a matter of finding accommodations elsewhere. The same condition obtains in other cities, we are informed.

1,200,000 NEGROIDS IN CITY

Inland America does not realize what is going on here in New York. The Red Jews have used the "tolerance" club to convert the white Jews into favoring social equality, and the two of them line up with the Negroes politically.

There is a steady influx of thousands of Southern Negroes into New York, having been invited in by the infamous "FEPC" law, compelling their employment in the place of whites.

They now claim to number 700,000 Negroes in the Greater City; while the Negroid Porto Ricans have flocked in in even greater numbers since the war started, and are said NOW TO NUMBER 500,000!

The two together now number in the big city around 1,200,000 "black and tans".

The Reds have caused the craven local demagogues to put Negro teachers in schools and colleges predominantly white, while sending white teachers into the Negro schools of Harlem, the Bronx and Brooklyn.

The white YMCA's and YWCA's have ceased to exist, officially, and HAVE GONE NEGROID, admitting Negroes into their membership, altho the "Y" white personnel are as antagonistic to the movement as Southerners.

Government investigations will soon reveal a terrific passport racket in New York City. Racketeers have been bringing people in and out of the United States illegally for a price. When the truth comes out it will strike center in the political reputation of several outstanding and notorious New Deal office-holders.

Physio-Therapy Clears Dizziness

Dear Kosti:

. . . Reading of your recent experiences, I too am getting old . . . I am suffering from dizziness, sinus trouble, . . . H. D.

* * * *

Dear H. D.:

We have no business getting old and decrepit. Our bodies are so constructed that they are eternally young **as long as we don't interfer** with natural functions. While I have terribly abused mine, intent on maintaining a free channel for expression thru the press, producing an independent paper which **still IS independent,** against all odds; nonetheless, I have lived much closer to Nature's plan than you do. As a vegetarian, from divine compassion with the right of animals to life, who also studied the Zend-Aryan science of religion which explains our mental, spiritual and organic constitution, even though I exhausted the body, I did not poison it to the degree that non-vegetarians do. I am recovering very fast with a little aid now.

When the nerves are run down and elimination does not proceed as it should, you will, of course, have dizzy spells, as well as sinus trouble. But if you take proper breathing exercises, find a **PHYSIO-THERAPIST** to administer **high colonic flushings,** watch your diet **and your THOUGHT,** the poisons will be eliminated, the nerves strengthened and your dizziness and sinus troubles disappear.

I found a chiropractor who uses a Tox-Eliminator apparatus which does not merely flush but also exercises the colon, inducing it to function naturally, massaging its muscles. One week of treatments did miracles. My man lives in Los Angeles at 3023 W. Sixth St., which, of course, would do you no good. But even in your neck of the woods you ought to be able to find somebody and recover.

Happy Easter, Sincerely, KOSTI.

War Gods are Monsters

When Bruno Mussolini dropped bombs on a small village in Ethiopia, killing all of its defenseless people, and then told the world that the mangled bodies, blown high in the air, reminded him of the unfolding of a beautiful rose, the thought and mental picture brought a feeling of horror against such inhuman savagery.

Every sane American who read the story, or heard it repeated over the radio, condemned the act and despised the creature who did it.

The God of War in his blood-drunk glee took on a more fiendish face than he had carried thru the centuries. The press of our country has employed its finest artists to picture the most horrible and repulsive faces and forms of mass murderers and branded them Germans, Italians, or Japs, when they were fighting against us, but I have failed to find a picture of our Amercan War God, who dropped atomic bombs on unarmed, unprotected Japanese workers — men, women, and children.

This act of American Military conception and achievement, slaughtering 120,000 people and wounding more than 200,000, was the outstanding act of barbarism in the history of warfare.

What could any civilized man or woman think of a giant fiend in human form who strode thru the land killing defenseless men, women, and children with his tremendous, spiked war club? Words cannot express the feeling. Let me say to any person who may read this, that the mind of the giant beast is not one whit more fiendish than the combined military mind of America that has dropped atomic bombs (on Japanese) and intends to use them against Russia, if the war mongers — world robbers — in our nation succeed in their war making project. It (bombing) is a cowardly way to kill people. There is not a spark of heroism about it. Nothing of decency. Not one iota of civilization about it, and against every word that Jesus — the master Christian — gave to the world as a rule to live by.

How happy a mother and father would be to know that ther boy, whom they tried to bring up as a Christian, had dropped bombs, killing, maiming 100,000 human beings.—T. J. Welsh, Chicago, Illinois.
